

At-Risk for Elementary School Educators

At-Risk for Elementary School Educators is an interactive role-play simulation for elementary school educators that builds awareness, knowledge, and skills about mental health, and prepares users to lead real-life conversations with students, parents, and caregivers about their concerns and available support.

Learning Objectives

- ✓ Increase knowledge and awareness about children's mental health
- ✓ Identify warning signs of psychological distress
- ✓ Lead conversations with a student and a parent to lay the groundwork for referral and collaboration
- ✓ Discuss concerns about students with parents
- ✓ Encourage our students to open up and motivate their parents to access support
- ✓ Understand your school's specific support services and availability

Learners interact with Virtual Humans through interactive conversations

Market

PK-12 and Government/Non-Profit

Audience

Educator

Topic

Mental Health & Well-being and Suicide Prevention

Duration

60 Minutes

Overview

Educators are in an ideal position to engage in early intervention and prevention of mental health issues. While 50% of lifetime cases of mental illness are diagnosed by age 14, many signs may emerge earlier, especially when children are exposed to traumatic life events.

Adopted by over 5,000 schools and districts nationally, this research-proven online solution cost effectively drives sustainable changes in behaviors that support student wellness, academic performance, attendance and school safety. Users have access to customized national, local, and school-specific resources in addition to simulation content.

Features

- ✓ Fully-hosted solution deployed to users in less than one week
- ✓ Technical assistance and outreach templates to drive adoption
- ✓ Usage reports and customizable online surveys to support program evaluation
- ✓ Customizable list of local and national mental health resources
- ✓ Discussion guides to support blended delivery with in-person workshops

“The simulation was a reminder that we need to have positive and supportive relationships with students in order to help them also succeed academically.”

– Teacher, provided by Minnesota Dept. of Health
