

BYSTANDER INTERVENTION / CHECKING FOR CONSENT / REFERRING PEERS

Sexual Misconduct Prevention for Students

Simulated practice with virtual humans engages students in critical thinking to equip them to navigate difficult situations, leading to a safer and more connected campus.

INDIVIDUALIZED
DYNAMIC COACHING

Why choose Kognito simulations to train your students?

SIMULATED PRACTICE

Extensive research shows that increased emotional engagement and reflective thinking leads to stronger self-efficacy and behavior change.

DYNAMIC LEARNING

Conversation scenarios adapt to meet students where they are, and give individual feedback across standardized content.

DIVERSE PERSPECTIVES

Scenarios include diverse examples of sexual orientation and gender identity.

COMPLIANT

Includes content required by law and is consistent with student training requirements under the Clery Act, the Campus SaVE Act, and Title IX guidelines. Customize your own list of campus policies and resources.

**Hirschfeld
Kraemer**

Sexual Misconduct Prevention for Students was developed with extensive and ongoing legal counsel from higher education and employment law firm Hirschfeld Kraemer LLP.

Assume the role of a student to:

- ✓ Understand the importance of preventing sexual assault and recognize warning signs
- ✓ Identify strategies for intervening and how to respond effectively in situations where peers have been affected by sexual violence or misconduct
- ✓ Differentiate between on- and off-campus confidential and non-confidential resource services, and know when and how to refer peers
- ✓ Determine when consent has or has not been given, and practice how to ask for, give, and not give sexual consent
