

# Bloodborne Pathogens

**Bloodborne Pathogens** is an online training program for educators, coaches and staff working in school or athletic camp settings that require annual OSHA-compliant training in bloodborne pathogen education.

## Learning Objectives

- ✓ Identify bloodborne pathogens and symptoms of bloodborne diseases (hepatitis, HIV)
- ✓ Identify modes of transmission of bloodborne pathogens
- ✓ Recognize proper use and handling of personal protective equipment
- ✓ Identify measures to be taken when the skin or eyes are exposed to infectious material
- ✓ Recognize and describe components of an Exposure Control Plan
- ✓ Safe cleanup and disposal practices

Learners interact with Virtual Humans through interactive conversations

**Market**  
PK-12

**Audience**  
Educators, Coaches, & Staff

**Topic**  
Healthcare

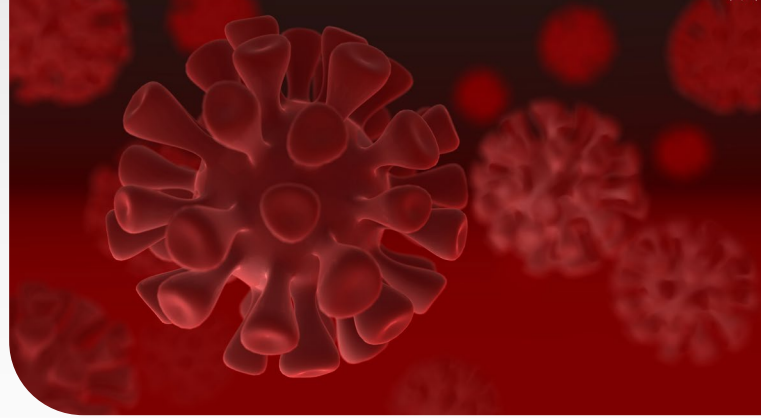

**Duration**  
20 Minutes

## Overview

*Bloodborne Pathogens* is an online training program for educators, coaches and staff working in school or athletic camp settings that require annual OSHA-compliant training in bloodborne pathogen education.

Offering essential information and knowledge checks, the program joins the Kognito portfolio of mandated compliance-based training programs in the PK-12 space, including suicide prevention, trauma-informed practices and bullying prevention training.

## Features

- ✓ Fully-hosted solution deployed to users in less than one week
- ✓ Technical assistance and outreach templates to drive adoption
- ✓ Instructional content with knowledge checks
- ✓ Meets OSHA compliance standards for annual training in bloodborne pathogens awareness
- ✓ Kognito Certificate of Completion

### **Fort Worth ISD Uses Kognito to Create Safer Schools**

*“Not only are we using funding to acquire and to adopt professional development, but we also use it to strengthen our curriculum.”*

**– Dr. Roina Baquera, Director,  
Health and Physical Education Department**
