

SAFE & CARING SCHOOLS SUITE

Kognito

Safe & Caring Schools suite is a scalable community approach to upstream violence prevention and includes three experiential learning programs, one for each audience in the full community of support: educators, students and caregivers.

Learners reflect on their role in fostering safe & caring schools, recognize signs a student may be in distress, understand potential resources for support, and engage in a caring conversation in a virtual practice environment.

The three programs are designed to work together to build and reinforce a culture of trust and open communication, empowering the full community to share concerns and work together to connect students to appropriate support.

PROFESSIONAL DEVELOPMENT FOR TEACHERS & SCHOOL STAFF

LEARNING OBJECTIVES

- Understand the positive role educators play in the lives of their children
- Analyze ways to talk to an adolescent that help them to open up
- Recommend appropriate actions when you hear something of concern
- Identify behaviors of concern including bullying, harassment, self-harm, & threats

SEL STUDENT CURRICULUM

LEARNING OBJECTIVES

- Identify own and others' emotions as they relate to bullying, harassment, self-harm, and threats
- Recognize when a peer's actions or statements need to be shared with adults
- Feel comfortable and empowered to share concerns with an adult
- Investigate ways to encourage a peer in distress to open up to a trusted adult

COMMUNITY PROGRAM FOR PARENTS & CAREGIVERS

LEARNING OBJECTIVES

- Understand the positive role they play in the lives of their children
- Analyze ways to talk to an adolescent that help them to open up
- Recommend appropriate actions when you hear something of concern
- Identify behaviors of concern including bullying, harassment, self-harm, & threats
