

## Sexual Misconduct Prevention Suite

A safe and inclusive campus environment starts with sexual misconduct prevention training for the entire community. Kognito offers practice-based learning to equip learners with the knowledge and skills to navigate difficult situations related to sexual misconduct, appropriate behavior, and consent in a safe and private practice environment. The Sexual Misconduct Prevention Suite features two simulations - one focused on students and another for faculty and staff.

### Overview

Efficacy data demonstrates that these simulations drive sustainable changes in behaviors that support campus safety. The training programs meet the compliance requirements for sexual misconduct prevention, discrimination, sexual harassment, child abuse, neglect and trafficking.

### Features

- ✓ Meets Clery Act, Title IX, NCAA and VAWA compliance
- ✓ Students practice conversations focused on bystander intervention, checking for consent, referring peers
- ✓ Faculty and staff practice conversations focused on maintaining professional relationships, discrimination and harassment prevention
- ✓ Virtual humans offer safe practice environment

Recent survey data shows that **95%** of students surveyed indicated they would use tips and strategies from the simulation in a real-life situation.

Learners engage with Virtual Humans through interactive conversations

## Sexual Misconduct Prevention for Students

This program equips students with the skills to navigate difficult conversations related to sexual misconduct.

### Learning Objectives:

- ✓ Understand the importance of preventing sexual assault, recognize warning signs
- ✓ Analyze strategies for intervening and how to respond if peers have been affected
- ✓ Differentiate between on and off-campus resources, know when and how to refer peers
- ✓ Determine when consent has been given, and how to ask for, give, and decline consent

## Sexual Misconduct Prevention for Faculty & Staff

Faculty and staff will gain the knowledge and skills to recognize, report, and prevent misconduct against students and peers.

### Learning Objectives:

- ✓ Respond effectively to students' report of sexual misconduct
- ✓ Evaluate how to make room for consent within everyday actions
- ✓ Refer students who have experienced sexual misconduct to on and off-campus resources
- ✓ Apply strategies for intervening in situations where there might be misconduct
- ✓ Build relationships with students
- ✓ Identify and prevent harassment through use of bystander skills
- ✓ Strategies for identifying child abuse, neglect and human trafficking

***I liked that the training covers all sides of the topics being discussed, in order to create a holistic view of the skills being taught.***
