

# Sexual Misconduct Prevention for Students

Kognito is pleased to announce a new immersive training solution on campus sexual misconduct for students. Unlike traditional e-learning, students practice evidence-based communication techniques in a virtual campus environment and receive personalized feedback from a virtual coach.

Kognito's interactive solutions go beyond compliance, proven to engage college students and shape attitudes and behavior that lead to a safer campus climate.

## LEARNING OBJECTIVES

1. Understand the importance of **preventing** sexual assault and recognize **warning signs**
2. Identify **strategies for intervening** and how to respond effectively in situations where peers have been affected by sexual violence or misconduct
3. Differentiate the roles of Title IX coordinator, confidential advocate, and counseling services, and know **when and how to refer** peers
4. Determine when **consent** has or has not been given, and practice how to **ask for, give, and not give** sexual consent

## FEATURES

### Practice-Based

Role-play conversations in realistic scenarios (on bystander intervention, consent, and supporting a victim) that keep students engaged.

### Compliant

Includes all content required by law and is compliant with the Clery Act, the Campus SaVE Act, and Title IX guidelines. Customize your own list of campus Title IX policies and resources.

### Impact Measurement

Admin tools allow for easy usage tracking to monitor compliance. Customizable pre/post surveys support program evaluation.

### Developed by Experts

Content created with input from Title IX legal experts, sexual assault prevention leaders, instructional designers, and real students. Includes diverse examples of sexual orientation and gender identity.
